

Sunilkumar

Frontend Developer | React Learner

skysunil2025@gmail.com | github.com/sunilkumart2025 | linkedin.com/in/sunilkumart2025

PROFILE

Frontend Developer focused on building clean, responsive and usable web applications.

Currently learning React and actively building real-world projects to improve performance, usability and code quality.

I focus on building simple, clean and usable interfaces, not just designs, but working products.

EDUCATION

B.Tech - SRM University (2024 - 2028) | CGPA: 8.76

Higher Secondary - Senthil Public School

SKILLS

Frontend: HTML, CSS, JavaScript, React (Learning)

Tools: Git, GitHub, VS Code, Vercel

Concepts: Responsive Design, DOM Manipulation, UI/UX Basics

PROJECTS

Billing Website

Web-based billing system for invoice generation and transaction management.

Designed UI and implemented functionality using JavaScript. Focused on handling user input, validation, responsive layout, and clean usability.

Nestify Web Application

Responsive web application focused on modern UI design and smooth user experience.

Built interactive UI elements, improved mobile responsiveness, and maintained a clean structure for better usability and performance.

WORK APPROACH

I break problems into smaller parts and solve step-by-step.

I focus on writing clean and readable code.

I test UI across devices for responsiveness.

I improve my projects based on feedback.

AVAILABILITY

Available for Internship (Frontend / Web Development) | Ready to join from May 23
